3. Scope

This ESG Policy applies to all Triunfo do Brasil stakeholders, including employees, managers, owners, public authorities, regulatory agencies, local communities, suppliers of products and services, customers, yerba mate growers, certification bodies and other entities or individuals who may affect, or be affected by, the organization's operations and results.

4. Definitions / terminology

ESG (Environmental, Social and Governance): a set of environmental, social and governance criteria considered when assessing risks, opportunities and impacts, with the purpose of guiding sustainable activities, business and investments.

SDGs (Sustainable Development Goals): a set of 17 global goals established by the United Nations to address the world's major development challenges through 2030, covering social, economic and environmental issues.

Sustainability

The ability to meet present needs without compromising the ability of future generations to meet their own needs, across economic, social and environmental dimensions.

Stakeholders

All parties affected by, or able to affect, the organization's operations and results, including employees, customers, suppliers, communities, investors and regulators.

Governance

The system by which companies are directed, monitored and encouraged, involving relationships among owners, boards, management and control bodies.

Compliance

The disciplines used to comply with laws, regulations and internal policies, and to prevent, detect and address deviations or nonconformities.

5. Responsibilities

Implementation and maintenance of Triunfo do Brasil's ESG Policy depend on fulfillment of the responsibilities assigned to the parties involved, as described below.

- ESG Committee: Define ESG guidelines; prepare and review the ESG Policy; monitor performance indicators; conduct the annual policy review; assess ESG risks and opportunities; and report results to the Executive Board and other stakeholders.
- Human Resources: Disclose the ESG Policy internally, promote training and awareness, and implement ESG actions related to people management.
- OHS: Implement ESG actions related to ensuring a safe and healthy workplace.
- Managers: Implement ESG actions in their respective areas and ensure that policy guidelines are fulfilled in day-to-day operations.
- Executive Board: Approve the ESG Policy, monitor indicators, assess ESG risks and opportunities, and ensure strategic alignment and support for implementation.
- Marketing: Communicate the ESG Policy externally and report ESG results transparently to stakeholders.
- Employees: Be informed about the company's ESG guidelines and fulfill the standards established in this policy.
- Suppliers and customers: Be informed about the guidelines and standards established herein.

6. Organizational context

6.1. Organization and its context

Triunfo do Brasil Industria e Comercio Ltda. has been engaged for more than 50 years in the production and trade of organic yerba mate, supplying products to customers on five continents.

Throughout its history, the organization has built its operations on valuing yerba mate culture, product quality, social and environmental responsibility, and relationships of trust with customers, employees, suppliers and partners.

Triunfo has an integrated value chain encompassing raw material production and management, receipt and control of inputs, processing, extraction, packaging and sale of its products.

At every stage, the company seeks to comply with legal, regulatory, certification, customer and partner requirements, while maintaining its commitment to quality, food safety, sustainability and continuous improvement.

The organization recognizes that the sustainability of its business is directly connected to its ability to create value in a balanced way across environmental, social and economic dimensions, adopting ESG principles as part of its corporate responsibility and sustainable growth strategy.

Accordingly, the organization seeks to reconcile economic performance, operational excellence, food safety, social and environmental responsibility, and governance, strengthening its competitiveness and contributing to the sustainable development of its value chain.

To remain competitive in national and international markets and meet stakeholder expectations and requirements, Triunfo has established the Mission, Vision and Values that guide its decisions, behaviors and strategic objectives.

Mission

Value the culture of organic yerba mate and its production and commercialization with high standards of quality and reliability, through environmentally sound, socially fair and economically viable practices.

Vision

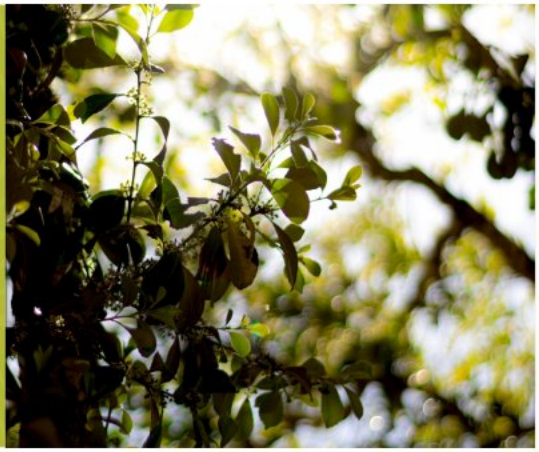

To be nationally and internationally recognized as a benchmark in the production and commercialization of organic yerba mate. Build long-term, reliable and consistent partnerships that benefit our customers.

Achieve sustainable growth by consolidating good corporate responsibility practices.

Values

Customer focus;
quality of products and services;
human development and respect for the individual;
ethics, integrity and transparency;
economic, social and environmental responsibility.

7. Procedure description

Triunfo do Brasil's ESG Policy is structured around three fundamental pillars: Environmental, Social and Governance. These pillars guide the company's sustainable actions, promoting the integration of corporate responsibility principles into its operations, processes and relationships.

The Environmental pillar covers environmental impact management; the Social pillar covers relationships with employees, suppliers, customers and communities; and the Governance pillar establishes guidelines for ethical, transparent, sound and responsible management.

7.1. Environmental dimension

The Environmental dimension reflects Triunfo do Brasil's commitment to protecting and conserving natural resources, minimizing negative impacts and promoting practices that contribute to the environmental sustainability of the planet.

Environmental management is an integral part of our operations, with a focus on resource efficiency and climate risk mitigation.

Environmental guidelines

7.1.1 Promote continuous improvement of production processes by establishing targets and indicators to reduce natural resource consumption, optimize operational efficiency and minimize waste generation and environmental impacts. (SDGs 12 and 9)

7.1.2 Promote and ensure conscious and efficient use of water resources by establishing controls, reduction targets, indicator monitoring and actions to prevent waste and leaks. (SDGs 6 and 12)

7.1.3 Control and reduce environmental and climate impacts by managing atmospheric emissions from operations, maintaining vehicles, machinery and equipment, complying with legal requirements and continually seeking more sustainable alternatives. (SDGs 13 and 12)

7.2. Social dimension

The Social dimension reinforces respect for and appreciation of people, both within the workplace and in the communities where Triunfo operates. The company seeks to build a fair, inclusive and safe work environment, while contributing to social development and stakeholder well-being.

Social guidelines

7.2.1 Promote an accessible, diverse, inclusive and discrimination-free workplace, ensuring equal opportunities in recruitment, development, promotion and retention, in accordance with applicable legislation. (SDGs 8 and 10)

7.2.2 Ensure a safe and healthy workplace by identifying and controlling occupational risks, complying with health and safety standards, providing personal protective equipment, conducting periodic training and continuously monitoring work conditions and organizational climate. (SDGs 8 and 3)

7.2.3 Promote compensation and benefits policies aligned with market practices and based on transparent criteria, internal equity, recognition and performance, contributing to talent attraction and retention. (SDGs 8 and 10)

7.3. Governance dimension

The Governance dimension establishes the pillars for ethical, transparent and responsible corporate management.

It ensures that Triunfo do Brasil operates in compliance with laws and regulations, promoting integrity and accountability in all decisions and processes.

Governance guidelines

7.3.1 Ensure a clear governance structure, with defined roles, responsibilities, levels of authority and decision-making processes based on ethics, transparency, compliance and accountability. (SDGs 16 and 8)

7.3.2 Ensure traceability of inputs and products at every stage of the value chain, providing transparency and reliable information to customers and other stakeholders. (SDGs 12 and 8)

7.3.3 Strengthen the Compliance Program and a culture of integrity, ensuring full compliance with applicable legislation, internal standards and ethical principles, with a focus on risk mitigation and transparency in all Triunfo do Brasil relationships. (SDGs 16 and 8)

7.3.4 Strengthen the social development of the communities where the company operates by supporting and encouraging educational, cultural, sports and quality-of-life initiatives, including partnerships with local organizations through the Triunfo Employees' Association (ATT), expanding the positive impact of these actions and contributing to the sustainable development of the region. (SDGs 11 and 17)

8. Final considerations

More than a set of guidelines, this policy represents Triunfo do Brasil's ongoing commitment to conducting its business ethically, responsibly and sustainably, incorporating environmental, social and governance principles into its decisions, processes and relationships.

This ESG Policy is methodologically grounded in internationally recognized standards, regulations, indices and internal and external guidelines. To further strengthen this approach, Triunfo do Brasil received support from Sesi Parana to integrate sustainability into its strategy and business model.

This policy will be continuously monitored and reviewed to ensure the evolution of the organization's ESG practices, strengthen a culture of integrity, innovation, social and environmental responsibility and continuous improvement, and contribute to building an increasingly sustainable, resilient business prepared for future challenges.
